

49. Consequently, these millions of neurons also contain the sin nature. For the renovation of the soul to take place, the thoughts facilitated in the brain's memory traces must be reprogrammed.
50. The only way this transformation can be accomplished is for divine truth to be willingly voted on through personal free will into the *kardía* of the soul.
51. Oldness of life must be systematically transformed over time so that newness of life may dominate the soul. Human good and evil must be reprogrammed to that the Word of God can do it.
52. It is only the facilitation of God's immutable thought that can orchestrate this renovation of the human soul.
53. Human good and evil presently dominates the thinking of the overwhelming majority of people on this planet including client-nation America.
54. The renovation of the souls of believers will require great suffering so that people will be shocked into giving divine thought a try, a probability that historically is tried by precious few.
55. Ezekiel characterizes the reversionistic Israelites of the divided kingdoms as two sisters who were whores: Samaria as the sister *Āhōlah* who abandoned the Lord in favor of the Assyrians and Egyptians and Judah as *Āhōl'ibah* who abandoned the Lord to follow after Assyrians and Chaldeans.
56. The grossness of the sisters Stockholm syndrome toward the enemies of the Israelites is portrayed by the Lord as the lewd association between whores and heathen:
Ezekiel 23:30 - I will do these things to you, because you have gone a whoring after the heathen, and because you are polluted with their idols. (KJV)
57. Our leadership has done the same before the Lord by cozying up to heathen Muslims, Iranians, and Russians. This united enemy lusts to take advantage of our obvious weakness and assumed naiveté.

58. All this points out that the human body requires a process by which any discipline can be mastered. It took over a hundred years for Progressivism to successfully propagandize the American population.
59. By the same token, it takes the large part of a lifetime for the Holy Spirit to renovate a positive believer's soul through the inhibition of human good and evil and facilitation of the Word of God.
60. When facilitation of human good and evil gains prominence because inhibition of Bible doctrine loses its power, then the client nation enters into the five cycles of discipline.
61. The individual believer is expected to stay the course and continue to do his duty before the Lord. That duty is to "walk in newness of life."
62. The word "newness" is the locative singular of the adjective **καινότης (kainótēs)** followed by the descriptive singular of the noun **ζωή (zōē)**.
63. What is depicted is a life that is unusual, astonishing, and extraordinary, ergo "a qualitatively new life with the indwelling of Christ." It connotes what is new in the sense of being remarkable, unheard of.
64. The present-day observation of the "scientific method"¹ obligates its practitioners to ignore the metaphysical. But even the Greeks recognized the difference between the body and the soul:
- The Greeks seemed to have understood very clearly the difference between soul life and biological life. What makes reference to the soul is described by the word ζωή. What has reference to the body is described by the word βίος. From these words we have the English descriptions of two branches of science: zoology and biology. But the Greeks were very clear on their category of words.**
65. A description of "newness of life" would read, Potential equals Baptism of the Holy Spirit plus Capacity equals Doctrine in the *Kardía* producing Spiritual Maturity equaling Reality of the Encapsulated Environment of the Life inside the Bubble.

66. This is how you reprogram your soul's computer. The circuits of the computer can be damaged or completely fried by ingesting, inhaling, or inoculating certain external elements that include alcohol, marijuana, cocaine, heroin, or other Breaking-Bad ideas.
67. The danger some states have legally approved is the medical and/or recreational sale of marijuana. Libertarians insist that its use affects no one else and is therefore a victimless practice. But it is not, since the one that uses it is a victim.
