

# Neurons Laying a Memory Trace

- (A) A signal from one neuron is transmitted electrochemically to  
(B) another  
(C) and the nerve cell fires, sending the signal on to  
(D) the next neuron in the network.

John Allison's rendering of the neural network in:  
Richard M. Restak, *The Brain* (New York: Bantam Books, 1984), 32-33.
